VI. Financial Support for LIS Research

1 LIS research: General Information

Korea has :

- National Research Foundation (NRF, 韩国研究財団) of Korea which is the main sources for LIS research from the Korean government.
- NRF has various financial research-supporting programs for LIS researchers, including Fostering Next-Generation Academic Researchers, Mid-career researchers, Young researchers, Interdisciplinary Research, University Research Centers, Excellent scholars, Masterwork Translation, Foundational Research, Brand-Enforcement Project, General Joint Research, Emerging Area Research.
- Korean LIS researchers have secured about 25 research funds in average core from NRF from 2013 to 2016.
- Other library-related organizations including National Library of Korea also support the project-based research.

MISSION

Promote research creativity and nurture global researchers

VISION

“ To become a global leader in research support promoting national R&D innovation ”

GOAL

Improve research quality

Supporting the development of creative researchers

Establish the world's leading research support system

- Social Sciences Research Support Program: Social Sciences Korea (SSK), Specific Research in the Social Sciences
- Joint Management System for Academic Resources Program: Korean Research Memory, Research Ethics
- Academic Organization Support Program: Publication of international academic journals, Academic conference
- International Exchange Program for University Researchers: Global Research Network Support, International Exchange for University Researchers
- Global Ph.D. Fellowship Program: Supports students pursuing a Ph.D. degree in a Korean university
- Experienced Visiting Researcher Program

VI. Financial Support for LIS Research

7 Project-based Funding Organizations for LIS Scholars in Korea

- National Library of Korea (国立中央図書館) (including National Library for Children and Young Adult, 国立子ども青少年図書館)
- The Korea Education and Research Information Service (KERIS, 韓国教育学術情報院)
- Korea Institute of Science and Technology Information (KISTI, 韓国科学技術情報研究院)
- The National Assembly Library of the Republic of Korea (国会図書館)

VII. Concluding Remarks

1 Strength

- a. Close relationship between academic community and librarians
- b. New entrance of younger generation scholars into LIS community
- c. Increased international level research by Korean scholars
- d. High rates of graduates of library school per capita

2 Weakness

- a. Small size of the department (in the numbers of students & faculty members)
- b. Lower employment rate of the graduates
- c. Increasing rate of temporary workers

VII. Concluding & Remarks

3 Opportunity

- a. High rates of university & college entrance(about 70% of high school graduates)
- b. Enlarging and various job markets in the related areas
- c. Increasing interests from community to library including public libraries

4 Threat

- a. Emerging potential competitors from similar and related areas
- b. Lower competitiveness within academic community
- c. Decreasing rate of candidates for college entrance (decrease in population)
